**(54) Title: METHOD OF AND DEVICE FOR DISPLAYING IMAGES ON A DISPLAY DEVICE**

**(57) Abstract:** The invention concerns a method for displaying images on a display device, characterised in that use is made of a display device (1) comprising at least a general processing unit (2), a display (3) consisting of several display units (4) and an individual processing unit (5) per display unit (4), whereby, in order to display the images, data concerning the image to be displayed are transmitted from the general processing unit (2) to the individual processing units (5) in the form of a data stream (11), in that there is a control communication between the general processing unit (2) and each of the individual processing units (5) in the form of control signals (13), and in that data from the data stream (11) are collected at every individual processing unit (5) as a function of the control signals (13) transmitted to the individual processing units (5). It also concerns a device consisting of a general processing unit (2) and serially coupled individual processing units (5).
